Late News Flashes

German-Communist Makes Plea

BERLIN, Feb. 8. — (Reuters) — German-born Gerhart Eisler, once No. 1 Communist in the United States, today appealed to 1,300 German scientists working on secret atom projects in the United States to "break their bonds and return to Germany."

Bank Robbers Get \$120,000

PHOENIX, Ariz., Feb. 8. — (AP) — Two men, at least one of them armed, today robbed the Bank of Douglas in downtown Phoenix of \$120,000 cash. Police said the men forced a bank employee to open the safe.

Steel Workers Donate \$500,000

PITTSBURGH, Feb. 8. — (AP) — The United Steel Workers (CIO) today sent a \$500,000 cheque to the United Mine Workers "to assist the needy miners and their families in their struggle against the coal operators."

Portugal Red Commits Suicide

LISBON, Portugal, Feb. 8. — (AP) — Police reported today that a leader of Portugal's Communist party killed himself by leaping from a third-floor window at police headquarters to escape questioning.

Lawyers' Appeal Is Denied

OTTAWA, Feb. 8. — (CP) — The income tax board has ruled that barristers' licence fees are not deductible for income tax purposes. The ruling was made in a judgment today dismissing the appeal of Gordon Kenneth Daley of Toronto from a revenue department decision disallowing a \$500 deduction from his 1946 income tax return.

Belgians To Vote On King

BRUSSELS, Feb. 8. — (AP) — The Belgian House of Representatives today voted to ask the people of this country whether they want King Leopold to return to his throne. The referendum will be late in March.

Bacon, Cheese Floors Asked

OTTAWA, Feb. 8. — (CP) — The Canadian Federation of Agriculture today urged the government to restore last year's bacon and cheese floor prices and raise the floor under eggs.

Vancouver Is Termed Best Market For Gas

CALGARY, Feb. 8. — (CP) — Metropolitan Vancouver is more readily adaptable to the use of natural gas for domestic purposes than any other metropolitan area in Canada, the Alberta Petroleum and Natural Gas Conservation Board was told today.

R. S. Davidson, industrial analyst representing the B.C. Electric Company, told the board which is hearing an application for gas export to the Pacific coast, that Vancouver has the highest percentage of owner-occupied dwellings of any large city in Canada, 83.7 per cent. The second highest is in Winnipeg with 82.2 per cent owner occupied.

Vancouver also had the highest percentage of single dwellings of any large city in Canada, 72.2 per cent. The next highest, Hamilton with 72.8 per cent, was followed by Winnipeg with 63.8 per cent.

Other information Mr. Davidson gave the board:

- 1. Vancouver was Canada's fastest growing city.
- 2. Petroleum is climbing rapidly as a favorite fuel while coal and wood are dropping.
- 3. A Vancouver householder to get the same heating value as a Calgary householder gets out of 4,000 cubic feet of natural gas, must buy 5,000 cubic feet of manufactured gas for \$9.95.

Two Expelled Czechs Leave

MONTREAL, Feb. 8. — (UP) — Two Czech mission staff members, ordered out of Canada by the government, took off for Europe by air today. One of the Royal Canadian Mounted Air lines, told the Canadian Press.

"They took off at 10:15 a.m. EST in a plane for Amsterdam," the KLM source said.

The two, Richard Bergmann and Hugo Bohounek, had held reservations of this aircraft for the last couple of days but as recently as yesterday there were indications they planned to cancel their flight plans and remain in Canada in defiance of the Canadian government order.

Australian Wheat Up

CANBERRA, Feb. 8. — (AP) — John McEwen, minister of commerce and agriculture, yesterday said Australia's 1949-50 wheat crop is likely to reach 215,000,000 bushels. This estimate is only 5,000,000 bushels less than the 1947-48 record harvest.

South Gets All-Canada Road Route

Kicking Horse Pass Selected by Alta. Manning Reveals

Trans-Canada highway will cross Alberta by way of Medicine Hat, Calgary, Banff and the Kicking Horse Pass. Premier E. C. Manning said today the provincial government had "no alternative" but to approve this route in view of the route selections made by British Columbia and Saskatchewan.

The federal government which will share the cost of the all-Canada road was informed last fall of the Alberta government's approval of the Kicking Horse route, Mr. Manning said.

"A report from Ottawa yesterday did not include Alberta in a list of provinces which had decided on the route of the Trans-Canada highway within their boundaries," Mr. Manning said.

Meanwhile, the Red Deer Board of Trade announced a committee has been set up there to press for recognition of the David Thompson Pass as the "logical route" for the Trans-Canada highway.

Other roads needed

"We will have to have these roads before long to connect with the province's north and south flow of traffic," the Premier said.

Meanwhile, the Red Deer Board of Trade announced a committee has been set up there to press for recognition of the David Thompson Pass as the "logical route" for the Trans-Canada highway.

ASK FINANCIAL TERMS

The provincial government is seeking information from Ottawa officials as to the financial terms already made for work already done by the province on the Medicine Hat-Kicking Horse Pass highway when this becomes Alberta's Trans-Canada highway link.

(Greater part of the route is already hard-surfaced and is in line with Trans-Canada highway standards.)

The province is also availing word from Ottawa in connection with handling of truck traffic through Banff National Park of the federal government's plan to build a new road in this area to become part of the national highway.

Mr. Manning said. The province has not yet been informed if a levy on truck traffic using the road is planned.

Yellowhead Ass'n Continues Fight

"The work of the Yellowhead Road Association will go right ahead," commented E. T. Love, secretary.

Medical Charge Of Edmontonian In Paris Court

PARIS, Feb. 8. — (Reuters) — William Douglas of Edmonton, who was charged with illegal practice of medicine in France, the court decision will be given next week.

Built was brought against the 42-year-old Canadian, a doctor of osteopathy, from Los Angeles, who was charged with illegal practice of medicine in France, the court decision will be given next week.

Douglas produced letters from Maj.-Gen. Georges Vanier, Canadian ambassador in France, and Sir Oliver Harvey, British ambassador, praising his "professional knowledge" and "respectability."

Douglas first came to France in 1933 and returned in 1946.

LIKES FAR NORTH

WARNER IN ARCTIC than in Edmonton says Sir Hubert Wilkins, famed Arctic explorer, on arrival in city last night by plane. He is on way to Anchorage, Alaska, to study new secret northern developments and continue research. (See story on Page 3)

550,000 Made Idle By American Strikes

Special to the Bulletin
CHICAGO, Feb. 8. — (UP) — The twin auto and coal strikes idled more than 550,000 workers today.

As firms laid off workers because of the worst coal shortage in 27 years resulting from the strike of 400,000 United Mine Workers.

Already coal-burning railroads and manufacturers had laid off 25,000 employees. Schools were closing, office buildings reducing heat and steel mills preparing to shut down blast furnaces. Railroads slowed coal in transit to keep train running.

The nation had only 18 days supply of coal, well below the 25-day "danger point."

IN ADDITION to those idled by the mine strike, more than 125,000 people were on strike or out of work as result of the CIO United Auto Workers' walkout against the Chrysler Automobile Corp.

But negotiations to avert a strike that could idle 420,000 telephone workers on Feb. 24 were set off Thursday to let representatives of the CIO Communications Workers and the Western Electric Co. "cool off."

The union yesterday postponed the strike which originally was set for today.

Lumden was the unanimous choice of the five-man board acting as judges for the award of the trophy named after the Toronto Daily Star sports editor who died in 1905.

Lumden defeated an international trophy voting included Bill Percell, a Vancouver B. C. truck star, speed skater Frank Slack of Winnipeg,

then swim at the Canadian National Exhibition, 1948, and professional swimmer of the Lakeshore Club in Toronto, was today awarded the Lou Marsh Memorial trophy as Canada's outstanding athlete of 1949.

Gov't Plans To Abolish All Controls

Import Restrictions Will Be Lifted By July 1950

OTTAWA, Feb. 8. — (BUP) — The government announced today that by July 1, most of the emergency import controls now in effect will be lifted.

Finance Minister D. C. Abbott said the bulk of controls now in effect would be abolished in two stages. Some would expire April 1, and others would be eliminated July 1, he said.

The controls were imposed in November, 1947, to limit Canadian imports from dollar areas, to protect Canada's supply of dwindling American exchange.

Abbott announced that effective April 1:

- (1) All restrictions will be withdrawn on the importation of printed labels, plumbing and bathroom fixtures, cocoa products and coffee products.

SUBT INCREASE

- (2) Restrictions on importation of glassware and heat resistant glassware, and electric light bulbs, will be lifted, and these commodities will be allowed in on a quota basis.

- (3) A slight increase will be permitted on imports of textiles.
- (4) All imports from Switzerland (Continued on Page 2)

Spring Breeze Caresses City

Gentle breezes from the warm south brought spring-like weather to Edmonton and district as the weatherman happily predicted a high today of 50 above.

Warm air, which brought high temperatures of 29 above by 2 p.m. yesterday, is a gift to Alberta from the south and delivered by the west.

The weatherman explained a series of Pacific fronts are moving in from the west, creating light southerly winds.

Snag has warmed up considerably, and at 48 below is second coldest yet. Yesterday was a gift to Alberta from the south and delivered by the west.

Overnight low in Edmonton was two above at 2 a.m.

Cross-Canada temperatures yesterday were:

The board of judges included: Elwood Hughes, general manager of the Canadian National Exhibition; Charles Rine, donor of the trophy; Tom Allison, former president of the Toronto Argonauts; and Charles Haggan, mayor of the University of Toronto.

Barbara Ann Scott was the 1948 winner of the trophy.

Three Injured Aboard Dakota

A Dakota search plane which disappeared in the Yukon last night while searching for a missing C-54 transport has been sighted on a mountain 12 miles north of Pon Lake, 85 miles northwest of Whitehorse, N.T.

First reports indicated none of the 12 men aboard was killed but three were injured.

The plane, not badly damaged, was sighted by another search plane which parachuted a radio to the men so full particulars could be reported back.

Some of the men were walking around the plane, but the number was not reported.

It was found between the 5,000 and 7,000-foot levels on a mountain slope.

SOME PCLCL

It is believed there are men of the Princess Patricia's Canadian Light Infantry aboard the downed plane as scanners when it went down. No official air force confirmation has been given.

Names of those on board were withheld by search officials. They included Canadiana and Americans.

One man suffered a broken leg, another has an injured chest and the third suffered shock. The other nine men escaped unscathed and were walking around the plane when spotted by a Dakota search plane, piloted by Capt. Roy L. Holdiman of the 10th Airborne Squadron, USAF.

Air search officials are considering whether to attempt a ground or air rescue. A helicopter would be used for the latter and snow-goggles "motor" vehicles for the former.

While distress signals from the missing Dakota were being picked up, this morning signals on the high frequency band were being monitored by radio posts between the United States and Alaska in the hope that these may be coming from survivors of the missing C-54.

The search, named Operation Mike, went into its 13th day today.

Twenty-seven of the injured were brought to hospital at Winnipeg where they were treated for injuries. Eleven were detained. The other two were admitted to hospital at Portage La Prairie, Man.

The mishap was described as Manitoba's worst bus accident. The bus burst into flames soon after it settled on its side in the ditch.

Hollywood Garglers Say:

Al Schwartz and Marvin Fisher, who write gags for the Bob Hope show, were discussing the laughs Bob got during the past radio season, and came up with this as the best laugh-getter:

In one of his monologues Hope said, "I've got one of those teeny television sets and my cat loves it. He drags it over to a mousehole and turns on the cheese commercials."

Jack Benny's gagmen, Sam Perrin, Milt Josephberg, George Balzer and Jack Tackaberry, picked this one as Benny's best of a recent bunch.

Jack was in England trying to exchange money with his hotel clerk. "Deflation or no deflation," said the thrifty Jack, "I want more for my money."

"Beggars your pardon," the clerk said, "but it's hard to believe that you and the Marshall Plan come from the same country."

Paul Henning, who writes for the Burns and Allen show, tells this one about Gracie, who, it seems, was at a customer's looking for a couple of outfits she and George could wear to a masquerade party.

Gracie: "Say, that cowboy suit hanging over there might look good on George."

Clerk: "That's from the picture 'The Outlaw,' and I can give you the costume Jane Russell wore."

Gracie: "Oh, no thank you. I could never fill Jane Russell's shoes."

And here's a note from Wilkie Mahoney, a Hollywood press agent:

"On the way home one night a holdup man stuck a gun in the ribs of a screwdriver of mine and commanded: 'Reach for the sky.' The screwdriver replied 'What? And get my hands full of that dirty old Los Angeles smog?'"

And here's something that sounds as if it came from Hollywood.

One million pounds of potatoes, imported from Canada, were unloaded at New Orleans yesterday while the U.S. government, with a lapful of price-supported spuds, offered its surplus to farmers for one cent a hundred pounds.

J. Segari, New Orleans food broker and consignee of the Canadian potatoes, said the economics of the dilemma are too deep for him.

"I don't know why I can buy choice potatoes from Canada and have them shipped down here cheaper than I can buy them from Maine or Idaho—but I know I can do it," he said.

A parliamentary tradition started by the Stuart kings ended with Britain's Feb. 23 general election.

For the first time in 347 years, there will be no university members among successful candidates when the House of Commons reassembles in March.

University members were chosen by a mailed vote among graduates of universities concerned. Since this gave graduates two votes, one in the universities and one in their own constituencies, it was decided two years ago that university representation should be abolished.

Under representation of the People Act, Britain's electoral system now is based on the principle of "one man, one vote."

Alberta Wants CNR Books Investigated

OTTAWA, Feb. 8.—(CP)—Alberta wants the government-owned Canadian National Railways to open its books and show the Royal Commission on Transportation how it runs its business.

This request is embodied in Alberta's submission to be aired before the commission today.

By opening its books to the commission, says Alberta, the commission will be in better position to make a thorough criticism of the railway's capital structure.

The commission is studying national transportation problems. It will make recommendations to the cabinet when it completes its studies some time next year.

aground Tuesday night with 20 passengers aboard.

Two tug pulled the Princess Mary from rocks near the island pier at 1 a.m. today and were assisting the 2,155-ton vessel to dry-dock at Victoria.

Atomic Ship Engine Is Started in U.K.

Exclusive to the Bulletin

LONDON, Feb. 8.—(HUP)—The London Daily Mirror claimed today that British scientists will present to the cabinet within two months plans for what was described as the world's first atomic ship's engines and first atomic electric plants.

If the plans are approved, the Mirror said, the two projects can be completed in about two years' time. Work already has started on the atomic ship engine, according to the paper.

"Research work leading to this revolutionary project has been done by a team of scientists at the atomic city of Harwell," the Mirror said.

"Side by side with this research, many experts are working out the problem of adapting warships for the atomic power unit."

The paper failed to specify what work has been done so far on plans for the atomic electric plant but said its design would be that of a steam turbine fueled by atoms.

The two projects together will give Britain a world lead in the peaceful application of atomic power, the Mirror said.

A dozen leading British firms have established a company called "Isotopes Development Ltd." to capitalize on the industrial applications of atomic energy, the Mirror said.

Toronto MP, Church Dies

TORONTO, Feb. 8.—(CP)—Thomas Langston Church, veteran parliamentarian who was always proud to be called a "Tory," died in hospital here late last night. He was 71.

He sat for 25 years a member of the House of Commons and staunch upholder of the empire connection.

He arrived as mayor of Toronto longer than any other man, seven years from 1910 to 1922.

Tall, lean and a great dresser, he had showed some signs of physical weariness only in the last few months. Death was ascribed to asthma.

As much as any other public figure of the day he was responsible for creation of the public-owned Ontario hydro electric system.

Decision Deferred On Freight Boost To Decide Request For 20 Per Cent Increase by Both Railways

OTTAWA, Feb. 8.—(CP)—The Board of Transport Commissioners yesterday reserved judgment on the claim by Canadian railways that they should be allowed to boost freight rates by 20 per cent.

Hugh Wardrop, assistant commissioner who acted in the absence of the chief commissioner, Mr. Justice M. B. Archibald, concluded the year-end half session of the board which judgment may take some time, "but perhaps not too long."

INCREASE IN 1948 The case opened in July, 1948, a few months after the railways had been granted a 25-per-cent increase in freight rates after applying for a 30-per-cent increase. Before it opened, a railway-strike threat which would have tied up Canada's transportation was ended with a 11-cent-an-hour increase for all railroad employees.

The railways promptly applied for a further 20-per-cent increase in freight rates.

The case came to a pause last September when the board asked the railways to submit evidence, subject to the findings later of the Royal Commission on Transportation which still is sitting. However, the railways appealed to the Supreme Court without submitting any evidence. The board said that no delay was justifiable and that the board should set fixed and not interim rates.

DATE PRESENTED Brief hearings to open up the 20-per-cent case opened last week and the railways say they have throughout the case, based their argument on figures showing continued deterioration of their financial position because of increased costs of maintenance and labor.

Railway counsel, strengthened their argument with actual operating costs and revenues for 1948 instead of the estimated 1949 figures on which the original application was based.

Arguments supporting this view were rounded up from a heavy file of evidence by CPR lawyers C. F. H. Carson of Toronto, F. C. S. Evans, CPR vice-president and general counsel, and Hugh O'Donnell, CNR counsel.

5 PROVINCES OPPOSED The provinces confined their attack mainly to the privately-owned CPR and its presentation of accounts.

They did not particularly concern themselves with the CNR because it is government-owned and embraces a number of non-paying lines which are run in the public interest.

The provincial arguments were handled by five lawyers: J. F. Lawler, Alberta counsel; Frank Smith of Halifax, representing the three Maritime provinces concerned; M. A. MacPherson representing Saskatchewan; C. W. Brainer of British Columbia and W. E. McLean, Manitoba counsel.

CAPITALISM SAFE HERE SAYS JUSTICE MINISTER

CALGARY, Feb. 8.—(CP)—Canada presents a safe and noble environment for investment, Justice Minister Carson told Western Canada Petroleum Association at its annual meeting last night.

He said government circles viewed with "gratification" those people whose enterprise had developed the natural resources of the country. Future investment would depend on whether Canada maintains the integrity of her money and national stability.

"Perhaps the most important factor is the character and intelligence of the people," he said.

the import controls cut out about \$150,000,000 worth of imports annually. With the changes to be made by July 1, this figure will be cut down to less than \$100,000,000.

The principal items still on the prohibited list after July would be pork and pork products, cut flowers, soft plastic sheeting, electric lighting fixtures and paint, amusements, coin-operated amusement devices, and comic and pulp magazines.

Fireboss Situation Is Probed

Government To Check Claims About Safety

Alberta mines department is investigating a report that nine Alberta mines are operating under unsafe conditions as a result of a firebosses' strike.

The report was made by the provincial cabinet Monday by an industrial Federation of Labor delegation.

The delegation said safety supervision is inadequate since pit bosses and supervisors are doing the safety inspection work which is ordinarily the duty of firebosses.

Firebosses in the northwest on strike several weeks ago in protest of employers' refusal to accept an arbitration board award recommending a non-contributory welfare fund for firebosses.

Newsman Picked To Accompany Exercise Troops

A group of 22 Canadian and American news, radio and newspaper men will arrive in Ottawa Friday night bound for Whitehorse and Exercise Sweetbrier.

The group includes J. K. Mahon, director of army public relations, and Maj. A. M. Stirling, Western Command public relations officer.

Canadian press representatives are Noel Mostert, British United Press; Douglas MacLennan, Canadian Press; Ross Munro, Southern News; Phil Wade, Saskatoon Star-Phoenix; and Sifton newspapers: Bill Herbert, CBC; Bert Cannings, Canadian Broadcasting of Broadcasters; Ross Breckley, Seven News; Norman Young, Saturday Night; Michael Hill, Windsor Star; George Baine, Toronto Globe and Mail; Guy de Meris, Le Droit, Ottawa.

Farm Buildings In New Designs For New Times

TORONTO, Feb. 8.—(CP)—Professional designing of buildings should be used by farmers just as it's been developed in urban communities, the Ontario Plowmen's Association convention was told here.

Dr. H. J. Barre of Purdue University, Lafayette, Ind., said too often farm buildings have been erected with an eye to permanence and not much else. "Our farming methods change as do our living habits," he said, "and it's almost impossible to change some of these old buildings."

New types of all-purpose farm buildings were illustrated by the speaker, including the round-roof type which may be used for horses, livestock and store crops and machinery.

Church In Need Of More Teachers

Increased Sunday school attendance has demanded a more adequate teaching staff, said a recently released report submitted to the annual congregational meeting of the Presbyterian church indicated.

An increase in congregational membership and in Sunday school activities were reported at the meeting.

More than \$125 was contributed to the mission fund by the Westmount WMS.

Toy Shipment Sails For European Kids

PHILADELPHIA, Feb. 8.—(AP)—A "tide of toys" started across the Atlantic yesterday—a gift of goodwill and friendship from American kids to Europe's toymakers.

The 900,000 toys loaded aboard S.S. American Defender is headed for the Netherlands. There the 142 tons of playthings will be turned over to CARE overseas relief agency for distribution throughout Europe.

REUNITED AT VILNA

Alberta Farmer Offers Help to Boyhood Friend

A boyhood friendship that has silently lasted for 20 years is proving itself today on the Vilna farm of Peter Polyteio.

Mr. Polyteio is anxiously waiting for the cross country tour of his fellow countryman, Dr. Seman Zuk, to be completed in Vilna.

To doctor Zuk and his family of four, from Poland, Canada means a new life.

HOME IS WHERE they find it for Mr. and Mrs. J. J. O'Neill. Mr. O'Neill is an instructor with the CPR. His office and home are both in his rolling classroom which takes him from head of lakes to west coast. He and Mrs. O'Neill have comfortable quarters aboard car which was in Edmonton yesterday.

Rolling School Is Home For Railway Instructor

By Don Travis
Bulletin Staff Writer

Pride and joy of CPR and of the J. J. O'Neill left Edmonton last night for Calgary. It was the railway's baby.

In a classroom on wheels. The 90 foot recovered hospital car during the past three years has become familiar to all CPR crews.

In charge of the coach, which gives railroads a ready-made classroom, is general J. J. O'Neill of Winnipeg.

CAR IS SELF SUFFICIENT

Not only does the car carry its own mechanical needs, it also has a kitchen, a bedroom and shower.

In a blocked off portion of the car, Mr. and Mrs. O'Neill have a comfortable living room-kitchen, a bedroom and shower.

It's a 12 month a year job this teaching of railmen, said Mr. O'Neill and it takes him from the lakehead to the west coast.

The self-sufficient coach can generate its own electricity, pump water and raise enough heat to keep it warm in 40 below weather, Mr. O'Neill proudly related.

VARIED EQUIPMENT

In the classroom is equipment ranging from the latest wrinkle in amplifiers with individual "mikes" for each pupil to the old fashioned blackboard with a new twist.

The blackboard folds from the ceiling. It has intricate black checkered panels, used to illustrate safety lighting systems in hope of reducing accident hazards.

Mr. O'Neill could not make even an estimate as to the number of men he instructed in his coach each year but believes it runs to about 10,000.

INCREASES SAFETY

"The CPR believes that this system will reduce rail traffic accidents and more easily orientate the men to their work," he said.

The car has been in operation for three years. There is only one on the continent. It also is owned by the CPR and operates in eastern Canada.

Experiment with the "safety" coach has been watched with interest by all large railway companies in the U.S. reported Mr. O'Neill.

"They are taking favorably to the method and will probably do something along the same line soon," he said.

RAIL HOME IS FUN

Mr. O'Neill has had his wife travelling with him for three years. "She's been a secretary in an unofficial capacity," said Mr. O'Neill.

Mrs. O'Neill believes it's wonderful to be able to travel with her husband while he works with only having to take about four steps to get to his "office."

She explained that she didn't, however, do much cooking, or housework in the "office."

"True, it is self sufficient, but we use it only in case of emergency," Mr. O'Neill summed up his job by saying "sometimes it gets tiring having a home and office on wheels but it sure is fun."

modation for the Zuk's after the school found of Dr. Zuk, from whom he had been estranged for 20 years, heard of the doctor's plight and sponsored his migration to Canada.

The Zuk's are anxious to repay Peter Polyteio for his generosity in assisting them to come here and plan to work on one of the Vilna mine farms. He owns three and a house, for a few years and Dr. Zuk hopes to eventually practice medicine in Canada.

Sewer Line Extensions This Year

Edmonton will be able to service 3,000 additional residential lots with water, sewer and electricity in 1966, commissioner D. B. Menzies announced today.

Approximately 1,000 lots are city-owned and have been classified as agricultural land up until now.

The following areas will definitely receive service this year: Fifty lots on 122 street between 111 and 118 avenues; 200 lots in the Hudson's Bay Reserve between 109 and 116 streets east and west; 109 and 111 avenues north and south; 300 lots in South McKernan Lake district on the South side; unutilized number in Forest Heights and Mount Royal districts; from eastern city limits at 50 street west to 58 street and from 118 avenue south to the Saskatchewan river and other areas as well as under development.

WELLS DRY

In the area along the eastern city limits city services of water and sewage have been long sought because wells have been drying up.

If minimum services of water, sewage and electric light is made available this year, it will cost approximately \$600 per lot.

Where lots are fully serviced by the addition of gas, gravelled lanes and sidewalks cost is approximately \$1,000 per lot.

It is expected the servicing of the 3,000 lots will stimulate home building in these areas.

COSTS MONEY TO LISTEN

Three persons were fined a total of \$15 and costs in city police court today when they pleaded guilty to operating radio sets without licenses.

Pearson Returns From Ceylon Conference

SAN FRANCISCO, Feb. 8.—(AP)—L. B. Pearson, Canada's minister for external affairs, arrived yesterday by plane from the Far East.

Pearson is en route home from the Commonwealth Conference of Foreign Ministers at Colombo, Ceylon. He also visited India, Burma, Hong Kong and Tokyo.

Concerning the Chinese Communists, Pearson said they are treating Canadian diplomats at Nanking and Shanghai "correctly."

Asked what his feelings were about one of his plane's four engines failed a half hour out of the Golden Gate, the Canadian foreign minister said: "Losing one in four doesn't mean much."

Tories Change Name; Drop 'Progressive'

LONDON, Oct. Feb. 8.—(AP)—London Progressive Conservative Association decided at its annual meeting last night to recommend to its members that the word "progressive" be dropped from the party's name and it revert to its historic title of "Conservative."

SCHOOLS LIST NEED

Alberta's schools need at least \$800,000 to spend on new buildings this year, results of a survey being conducted by the provincial department of education show.

Schools estimate their needs for 1961 building at about \$600,000. H. E. Case, minister of education said today.

Gaming House Penalty \$150

Fine of \$150 was imposed in city police court today upon Michael Synhalin, who pleaded guilty to a charge of keeping a gaming house.

Morality squad officers testified that they raided a room at 1026 - 36 street recently, where they found gambling being conducted.

Tables, chairs and gaming devices were seized, according to the officers.

Synhalin was also fined an additional \$25 when he pleaded guilty to a charge of illegal possession of liquor.

Trial Is Ordered In Assault Case

Alberta Detainers of West Jasper Place, was committed for supreme court trial today by Magistrate A. Miller on a charge of assault occasioning grievous bodily harm.

Evidence at the hearing in city police station alleged that Detainers attacked a water in a downtown park on New Year's Eve.

As a result the water was sent to hospital with a broken chest bone and developed pneumonia, court learned.

Producers Talk Floor Prices, Market Outlook

Export markets and egg floor prices will be made topics under discussion at the seventh annual meeting of the Alberta Poultry Producers in Calgary on February 22.

More than 30,000 producers will be represented at the two day meet which was held in Edmonton last year.

Producers will be elected for three districts at the meeting. Officers for these districts are: J. J. Wetaskinaw and J. H. Rhodes, Brant.

The A. P. P. is a producer cooperative that has functioned since 1942. There are at present 15 branches in the province.

Main storage plants of the group are at Edmonton, Calgary and Lethbridge.

Arctic 'Banana Belt' Praised by Explorer

If you find winters in Edmonton cold, move north, not south, to the "banana belt" region in the Arctic Circle.

This advice was given yesterday by Sir Hubert Wilkins, bewickered Arctic explorer and Arctic explorer, when he arrived in Edmonton enroute to Anchorage, Alaska.

TEMPERATURES CONSISTENT

And Sir Hubert should have known. He has explored the Arctic with Vilhjalmur Stefansson in 1911.

The amazing 66-year-old explorer is now attached as a consultant with the U.S. Army and is conducting special research into weather problems as they affect the human body.

Unmistakably around his mission in Alaska, where he has disclosed he would discuss new developments with H. B. Helms, former U.S. northern air commander.

"We are not even allowed to discuss such vital matters as what's in the weather," he said.

WEATHER FORECASTS

As far as northern Canada is concerned, at present, Sir Hubert believes data being compiled in the Arctic wastes will soon lead to long range weather forecasting.

"First, we must break down the law of weather and find out what makes it tick, then we will be able to forecast accurately for years to come," he said.

Still in the back of the well-worn explorer's mind is a pet project of his from Alaska to New York in an underwater craft.

"Haven't achieved that plan entirely," he commented. "It's still kicking about."

The horse breeding industry in the United States is valued at \$200,000,000.

U.S. Gamble in Asia Rests on Ex-Play Boy

By Edward V. Roberts
Exclusive to the Bulletin

WASHINGTON, Feb. 8.—(BUP)—The United States today staked the success of its drive to halt Communism in southeast Asia on the stocky shoulders of a one-time play-boy prince—the Emperor Bao Dai of Viet Nam.

The State Department yesterday announced recognition of Bao Dai as a genuine nationalist who seeks to lead his people from colonial status to freedom. Russian propaganda brands him as the hiving of western imperialism and the tool of French colonialism.

TWO OPPOSING REGIMES

His regime was recognized by the Soviet Union nine days ago. Britain recognized Bao Dai shortly before the U.S. acted yesterday.

Bao Dai now is expected to assist in the civil war, their American observers believe southeast Asia can be saved from Communism. If this aid—plus the help of French troops who have been carrying the brunt of the fighting against the Communists—enables Bao to win the civil war, their American observers believe southeast Asia can be saved from Communism.

CANT PREDICT OUTCOME

Most observers also believe that if Bao Dai is defeated, the whole of southeast Asia including India, Pakistan and Indonesia will eventually come under Moscow's domination.

The United States views Bao Dai as a genuine nationalist who seeks to lead his people from colonial status to freedom. Russian propaganda brands him as the hiving of western imperialism and the tool of French colonialism.

Moscow has capitalized on the fact that France has not granted Bao Dai complete independence. The French retain control over foreign affairs and over security and defence. United States officials insist France eventually will give full and complete sovereignty to the new state.

American officials said cautiously that Bao Dai "appears" to be winning his war with the Reds. But until the effect of the Communist victory in China becomes clear, few are willing to predict the outcome. American recognition may not go down well with other nationalist movements in Southeast Asia.

Officials of the United States of Indonesia, which recently won complete freedom from the Dutch, refer to Bao Dai openly as a French "stooge."

New Delhi dispatches have reported that India will recognize neither Bao Dai nor Ho Chi Minh for the time being.

Details of projected U.S. aid plans for Viet Nam probably will be discussed at a strategy meeting of American diplomats in the Far East. The conference will be held at Bangkok, Thailand, Feb. 12-15.

Aussies Follow U.S.-U.K. Lead

Exclusive to the Bulletin
CANNBERRA, Australia, Feb. 8.—(BUP)—Ministers of external affairs Percy C. Spender said today that the "Australian government proposes to recognize the (French-supported) governments of Viet Nam, Laos and Cambodia in the former French Indo-China."

Spender said that Russia's recognition of the rebel Viet Nam government of revolutionary Ho Chi Minh "should lose him the support of sincere nationalists."

Viet Nam, Laos and Cambodia all are autonomous members of the French union. Britain and U.S. extended recognition to them yesterday.

Protect Oast Houses

BEXLEY, Kent, England.—(CP)—Bexley residents are fighting to save what are believed to be the last oast houses in the London Metropolitan area. The council wants to put a new housing estate right across the site, but have yet to make a decision. Oast houses are used in drying hops.

PICTURESQUE Jasper Park will be scene of one of winter season's highlights when annual carnival is held Feb. 13-19. Varied sports program, including plenty of skiing, has been lined up. This is finish of run from high country to timberline.

Bumper Carnival Planned Feb. 13 to 19 at Jasper

A week of play in one of Canada's great winter playgrounds is scheduled for Jasper Park Feb. 13-19.

And the sports program lined up for this first annual Jasper winter carnival parallels that of any other town in the province. On the broad scale it includes skiing, an ice carnival, badminton, hockey, curling and dances.

There are dances scheduled every evening at such spots as Spero's and the Whistler Ski Chalet, and a mammoth Valentine skidding will be held on Feb. 14.

On Thursday, Feb. 16, skating will be free, as will be the ski tow, snow football, ski polo and pee wee hockey. The Grand Ice Carnival opens Friday, Feb. 17, complete with fancy skating, pantomimes and broom ball.

Cross country, speed and relay ski races are planned for Saturday and the carnival queen will be selected the same evening.

ENDS SUNDAY
The show will wind up on Sunday with badminton, slalom exhibitions and senior hockey. Jasper's Chamber of Commerce stresses the fact that fans can come for a week or for a day.

Accommodation is adequate and transportation will be provided to the ski hill.

Among the candidates for queen is Lucille Dubard a stenographer from Edmonton's South Side.

She was Catholic Youth Organization a year ago and is active in skating and swimming parties.

Chicks Survive Eating
MOSMAN, Australia.—(CP)—A snake in a hen coop drove off a brooding hen and ate her 13 eggs. When the snake was killed nine eggs were found unbroken. Inside it these were put under a hen and healthy chickens hatched from three of them.

Climate in Canada Becoming Warmer

Glaciers Receding and Professor
Expects Trend Will Continue

MONTREAL, Feb. 8.—(CP)—Dr. George T. H. Kimble, chairman of the department of geography at McGill University, told the Montreal Rotary Club that changes taking place in Canada's weather are, by and large, all to the good.

"The main thing about our weather is that it is getting warmer," said Dr. Kimble.

"Here in Montreal our mean annual temperature has risen from 42 degrees Fahrenheit in the 1860's to 44 degrees in the 1940's, finishing up in 1940 with a mean temperature of more than 46 degrees."

"This has been characteristic of pretty well the entire north Atlantic region, including Greenland, Spitzbergen, Scandinavia and the British Isles."

Dr. Kimble said glaciers all over the world are receding with one or two exceptions in southeastern Alaska.

The Columbia ice fields of the Canadian Rockies are "receding so fast they will disappear altogether if present conditions persist for a few more decades."

These changes mean longer shipping seasons in the northern seas. Commercially valuable fish, such as cod, are migrating north. As a result the west Greenland "cod catch" amounted to 13,000 tons in 1940 as against five tons in 1913.

On the land, warming up of the climate in eastern Canada means in effect that the theoretical northern limit of feasible cultivation of wheat has advanced 200 to 300 miles.

"If things continue this way," said Dr. Kimble, "southern Ontario will become part of the corn belt and Torontonians may find themselves speaking with a southern accent which I think would become them."

Mr. Winters said he does not know whether public investment projects will be a major topic of discussion at the general government-provincial conference called for this fall.

From the moment when Pacific salmon enter fresh water on their way to spawn they do not eat.

Cape Breton Works Mount

HALIFAX, Feb. 8.—(BUP)—Public works projects totalling some \$38,000,000 will be undertaken in Cape Breton this year, a British United Press survey showed yesterday.

Toppling the list is the Cantre Bridge linking Cape Breton Island with the mainland. Federal Government announced last April the bridge would be built, with cost being shared between the federal and provincial governments and the Canadian National Railways. It was expected to cost around \$25,000,000.

Construction work on the Cape Breton International Airport near Sydney will add another \$2,000,000 to the public works bill.

Other projects include repairs to piers in Glace Bay harbor and a new terminal at North Sydney for the Newfoundland ferry.

MANCHESTER, England.—(CP)—A Manchester firm does not waste time on export orders. Within 48 hours of receiving an inquiry for a Bion crane for a new power station in Nova Scotia, the firm completed the deal and received cable instructions to go ahead with manufacture.

STUDENTS' POOL FUNDS TO HONOR SIMPSON

Ernie Simpson, principal of Rutherford school, really came into his own yesterday.

Seems that Mr. Simpson, a member of the Granite club, skipped his rink into the Grand Challenge final at the 33rd annual Alberta Curling Association bonspiel, held here last night.

So the pupils of grades seven and eight at Rutherford decided to do something about it. Result was the popular schoolmaster was the recipient of a Granite club sweater, complete with crest. Present was financed by the pupils.

Bob Pollock did the honors for the students.

Plumbers Get Set For Annual 'Spie'

Better get all those leaky taps fixed up right away and make certain at the same time that the kitchen sink isn't about to plug up.

Yes, the plumbers—at least the curies among them—are planning a three-day bonspiel to be staged at the Edmonton rink (artificial ice and all that), Feb. 13-15.

Northern branch of the Alberta Plumbers' Association will sponsor the 'spie'. And directly concerned with its success will be a committee headed by Andy (Shors) Purcell, one-time city tennis champion.

Other members of the committee will be Colin Martindale, Bill Graham, Ed. Charlie Anderson and Harry Maughan.

Entry is to be limited to 32 rinks, including 20 from the southern chapter of A.P.A. Under a round-robin arrangement between the north and the south, 'spie' is held once in the north, the next in the south.

"We'll have close to \$1,000 worth of prizes to distribute," chairman Purcell observed last night. He said it like a man who wants to convey the impression that the plumbers don't care for peanuts.

'Whipper Billy' Holds Court

The man with the hairline moustache sat on a chair, a towel draped carelessly across his knees. It was not only raiment, except you count the sandals on his feet.

Nearly a shower—the one out of which he had just stepped—dripped noisily. And as he spoke the man ran a hand through his damp hair.

"It's alright, I won't catch cold if I sit here," 'Whipper Billy' Watson shook off a well-meaning Samaritan. "I like to do this. It releases me."

For the next half hour Watson talked about himself, about his early start in the rascals game, about the match just concluded with Al (Mr. Murder) Mills.

It developed that he is 33 years old (that's what the man said). Just about 10 years ago he took catchment to England, intent on getting a start in the mad madness. Arrived overseas his troubles set in in earnest.

"I lived in a tent for six weeks. About all I had to eat were beans," he said with a grin. "If you know about that English weather you'll know what I mean."

Mills is Okay

Now and then as he rambled on 'The Whipper' changed up on his habit of running a hand through his hair. Instead he fingered his nose gingerly. His late opponent had—he said—"kept working on it all night."

"That Mills is a pretty damn good wrestler," Watson admitted without much urging. "He's strong . . . knows lots about the game."

Not very long ago the Toronto idol mixed it with Lou Thesz, rated world champion in certain quarters. The National Wrestling Association and the wrestlers' Alliance go so far as to recognize him as such.

Thesz had won a verdict over Watson via disqualification. Nevertheless the latter was able to rate Mills very high, even by comparison with such as Thesz and Frank Sexton, a name that came into the conversation later.

"I lost seven or eight pounds out there tonight," Watson answered a questioner, keen to learn just what a rascal goes through to earn those fat pay-days. "I'll tell it tomorrow. Always do, the day after a match."

About noon he looked at him more closely. He weighs 235 pounds. There isn't any excess weight on the Whipper's body. His legs look like those of a guy who could run a little, once turned loose on a cinder track.

Could be, too, although any prospectus I've ever seen on Watson doesn't make him out a sprinter of parts.

Earned Nickname in London

By this time 'Whipper Billy' had pulled a "T" shirt on over his head and stepped into a pair of shorts.

What about Gorgeous George?

"I don't rate any part of a wrestler," Watson was quick to lower the boom on the Toast of the Coast. "I beat him in Toronto one time in about four minutes flat."

"My friends had been ribbing me that if I didn't get rid of him in a half hour they'd never believe in me again. So I had to oblige them."

That 'Whipper' tag was hung on him in England. London sportswriters noted his frequent use of the 'whip' hold and promptly came up with what has become a nickname with considerable box-office punch.

'Whipper Billy' Watson has a pretty good idea of where he's heading in as far as the future goes. A family man with a wife and three kids, he says about, he wants to get all he can out of rascals in the next five years.

"Then I hope to be able to retire and spend all my time in boys work, particularly."

Judging by the way he puffed 'em in last night it's not exactly a dream-world he lives in. It could easily happen.

Oh, yes. About his match with Mills. They called it a draw.

ANNUAL BONSAP OF THE NORTHERN ALBERTA LADIES CURLING ASSOCIATION IS SCHEDULED TO GET UNDERWAY MONDAY, FEB. 20

Annual bonspiel of the Northern Alberta Ladies Curling Association is scheduled to get underway Monday, Feb. 20.

Fourteen teams will be played at the Edmonton rink. An excellent entry is anticipated, particularly from out-of-town points.

Mrs. Earl Garlogh is president of the NALCA. Along with her assistants she is hard at work drumming up 'spiel business.

Uncle Sam to Tap Williams for Plenty

NEW YORK, Feb. 8.—(AP)—"Ted Williams' new baseball contract," he reported \$325,000 tops the late Babe Ruth's best salary by \$45,000. But the take-home pay for the Boston Red Sox slugger in 1950 will be just about even with Ruth's net salary for 1950 and 1951.

Washington tax experts estimate that out of the \$325,000 salary, Williams will have about \$250,000 left after paying Federal income tax.

On the other hand, based on 1950 and 1951 tax deductions, Ruth gave the government \$25,000 more in taxes than Williams will have to pay.

Williams' salary was \$250,000 last year. He was paid \$250,000 last year. He was paid \$250,000 last year. He was paid \$250,000 last year.

That doesn't take into account the dollar value today to 20 years ago. The buck today is worth only 25 cents as compared with 1930. But Williams' salary tops anything ever paid to a ball player before.

Here are some high-salaried stars in the major baseball leagues to try to figure approximate figures.

Ted Williams, Yankees, \$325,000; Hank Aaron, Pirates, \$200,000; Lou Houderman, Indians, \$200,000; Hank Newhouse, Tigers, \$200,000; Stan Musial, Cardinals, \$200,000; Bob Feller, Indians, \$200,000; Tommy Howard, Yankees, \$200,000; Ted Williams, Yankees, \$200,000; Ted Williams, Yankees, \$200,000.

LOS ANGELES.—(UP)—Brewer Smith, 116 lbs., Los Angeles, captured world title by knocking out Schumacher, 118 lbs., New York, Feb. 8.

EYE-FILLING Bauer sisters of Midland, Texas, tied for medal honors as Palm Beach Women's golf tournament under way yesterday in Florida play-off. Also left, exactly matched sister Mariene's 72. They triumphed recently in four-ball play at Hollywood, Fla.

Aquatic Aces Brighten Canada's Games' Picture

Big Four Baseball league executives watched little time calling a meeting following Monday's surprise announcement that the champion Cubs had withdrawn from the inter-city circuit.

Last night it was learned that president Sam Irwin and representatives of the remaining clubs, Edmonton Oilers (see Edmonton), Calgary Patriots and Calgary Braves, were scheduled to meet in Calgary today to discuss the development.

John Ducey, representing Oilers, went south at midnight for the exhibition.

It is understood that at least one organization—Spring-Deer Valley—may be exact—already has been in touch with Irwin regarding the taking over of Cubs' vacated franchise.

"I don't think the league will have any trouble finding a sponsor for a second Edmonton team," Ducey said before going to Calgary. At the same time he emphasized that final selection of a team to replace the 1949 champion will be strictly a league proposition.

"I'll just have a voice in it, same as the others," he added.

In the meantime all players on the Cub roster as it would have been had the metropolitan six withdrawn, will automatically become the property of the new sponsoring organization insofar as continuing to perform in the Big Four league is concerned, anyway.

HELEN ORGORDON, 16-year-old Scottish lass, won the event in B. Games' record time of 2:07.7 minutes. The former mark was 2:08.3 set in 1938. Nancy Lyons of Australia was second and Elizabeth Church of England third.

The 20-year-old Canadian's fourth place was worth three points to Scotland, less, won the event in B. Games' record time of 2:07.7 minutes. The former mark was 2:08.3 set in 1938. Nancy Lyons of Australia was second and Elizabeth Church of England third.

PERFORMED WELL
Dr. Athans gave an outstanding exhibition from the high tower but his diving wasn't quite good enough to beat Peter Healy. The barrel-chested Scot gained a 5.4-point and the first six dives Tuesday also increased it in today's remaining four to win with 19.6 to 14.56. Australia's F. J. Murphy finished third.

Canadian fences rebounded with decisive victories over New Zealand in the first round of men's Epee team competition.

CLEAN SWEEP
George Poppel, 26-year-old McGill University law student, and Ed Brooke, also of Montreal, won all three of their matches. Robert Desjardins of Montreal, 41-year-old veteran of the team, won two and his third match against John Makolm was a saw-off when both scored simultaneously with the score two-to-one.

The powerful Australian team is fourth in the British Empire games, but Canada will have a chance to finish second.

At the end of yesterday's day-long session, Canada had piled up a 90-point lead. Unofficial point-scoring showed the Canadians in fourth place, trailing Australia, New Zealand and England.

McGregors Rally Singers 4-1
George Poppel, 26-year-old McGill University law student, and Ed Brooke, also of Montreal, won all three of their matches. Robert Desjardins of Montreal, 41-year-old veteran of the team, won two and his third match against John Makolm was a saw-off when both scored simultaneously with the score two-to-one.

TRIPLE HEATER

Imperials Win Commercial League Tilt

Imperials downed Junction 6-2 last night in a Commercial Hockey league game at Stadium rink.

While in other commercial tilts Canada Packers defeated Andromeda 5-3 at Diamond Park and Flyers edged LaSalle 2-1 at Stadium rink.

Journe opened the scoring in their tilt early in the first period on a goal by Thatcher, then headed 2-0 in the second as Hunter scored. But they failed to count another marker, as 'Imperials' netted three in the second stanza and made a repeat performance in the third to win by a four goal margin.

Imperial scorers were Taylor and Morrison with two, Young and Archibald notched singletons. In the Packers-Andromeda game Jack Draper led the victors with a brace of goals, while team-mates Paul Tymchuk, Morris Lortie and Mike Thomas scored singletons.

Gordon LaFleche scored the winning goal for Flyers against the early marker, LaSalle's only counter was scored by Grace.

Oliver Wins 4-0
Oliver out Highlands 4-0 last night in a Community Bantam Hockey league game at Oliver rink.

Goalie Bruce Carr collected his first shut-out as team captain. Coyle, Ken Fitzgerald, Jack Suter and Jack Goldsack accounted for Oliver's goals.

Roof Over 119 Street
One suggestion is that the 119 street rink be roofed over thus providing a central location for every one. One of such a project is estimated at \$100,000.

Other proposals are more elaborate in that they call for an artificial ice arena to be constructed in the downtown area. Such an edifice would house all minor hockey and would also be used for air skating for anything except practice.

But the cost of such a project makes it well nigh prohibitive and almost fantastic. For it has been suggested that \$500,000 might be sufficient to erect such an establishment.

The idea of attaching an annex with a regulation size surface to the Gardens appears to be the most plausible suggestion of all. It has been aired a great deal but it would appear to merit the consideration of all progressive hockey enthusiasts in the city.

IT ADDS UP
This annex could be built adjoining the Gardens, thus saving the great expense of additional ice-making machinery. If it were at least to the Gardens, only three walls would have to be constructed and artificial ice pipes could be routed into the new section easily.

Labour costs on such a set-up would be approximated at \$100,000. Current Gardens' facilities could be made to accommodate the Gardens proper and the addition of the annex.

Cost of such a building might run as high as \$500,000. But since the existing Gardens is valued at a grant of \$400,000 to the city, the project could be paid for by diverting those moneys and other anticipated revenues into the project.

The virtues of such an annex are obvious.

It is submitted here that two-and-a-half times—three games could be played every night of the week in the annex. That would be a great enough to take care of the organized hangers, midge and juvenile leagues in the city.

Budding performers would be able to play more games on a larger ice surface, thus furthering their hockey development. And, last, the annex would save the city the expense of erecting a new arena.

Ken Clapp and McKeloid counted for Ponoks in the second only to make it 4-2 for the victors.

At 9:18 B.J. Jones scored for the home team and team-mate Dave Shantz added another tally 95 seconds later to tie the game.

Jimmy Smith took Clapp's tally and the Red Deer led to count the winning goal. At the time Jarline of Gunners was sitting out a penalty.

Lenord 'Kills' Cal's Squad
Lenord's fourth goal gave the Red Deer's 10-0 shutout over Cal's last night in a Canadian Bantam Hockey league game at Diamond Park.

Other goal getters for Webb's were G. Fleming with two, Norm Queregaert, Bernie Pail, Pat Whitford and Danny Lenard. The home team's goal scorers were Whitford's total to four.

Maples Top Canucks 6-1
Maples overpowered Canadians 6-1 last night in a City Mid-Juniors hockey game at Ritchie rink.

Rod Lindbergh led the Maples with a brace of goals, while singletons were scored by Jerry Laury, G. Langlois, Dickie and Tom Dunlop. Dennis Locken netted Canadian's only marker.

South Siders Thump Canucks
Ed Sike and Ken Keffert scored four goals apiece last night to spark South Side to a 10-3 win over Canucks in a City Mid-Juniors hockey game at 119 street rink.

Neil Reinhardt netted South Siders' other two markers, while Canadian's tally was scored by Kuff, Kinneer and McKay.

SACRAMENTO, Calif.—(AP)—Cauler Bruce Edwards has turned unassigned the contract offered him by Brooklyn Dodgers.

Edwards, who wasn't satisfied with his last year's salary, said the Dodgers' whisked 25 per cent, legal limit, off his contract.

Edwards, who wasn't satisfied with his last year's salary, said the Dodgers' whisked 25 per cent, legal limit, off his contract.

Edwards, who wasn't satisfied with his last year's salary, said the Dodgers' whisked 25 per cent, legal limit, off his contract.

Annex to Gardens

Minor Puck Need

BY DICK BEDDOES

Recent conversation in Edmonton's minor hockey circles has stressed the fact that a new deal for puck-chasers is necessary if this city is to develop players of comparable calibre to those in other centres across the country.

And the focal point in most hot-stove-league discussions on the matter is the question of improved rink facilities.

There is no question about it, actually. Everyone interested in the promotion of minor hockey agrees that better rinks are needed, especially since severe weather curtails playing on open-air surfaces.

And, although little action has been taken, the thought is that one closed-in area would accommodate the midsize and juveniles. This would forestall postponements and insure the players of plenty of ice-time.

One suggestion is that the 119 street rink be roofed over thus providing a central location for every one. One of such a project is estimated at \$100,000.

Other proposals are more elaborate in that they call for an artificial ice arena to be constructed in the downtown area. Such an edifice would house all minor hockey and would also be used for air skating for anything except practice.

But the cost of such a project makes it well nigh prohibitive and almost fantastic. For it has been suggested that \$500,000 might be sufficient to erect such an establishment.

The idea of attaching an annex with a regulation size surface to the Gardens appears to be the most plausible suggestion of all. It has been aired a great deal but it would appear to merit the consideration of all progressive hockey enthusiasts in the city.

IT ADDS UP
This annex could be built adjoining the Gardens, thus saving the great expense of additional ice-making machinery. If it were at least to the Gardens, only three walls would have to be constructed and artificial ice pipes could be routed into the new section easily.

Labour costs on such a set-up would be approximated at \$100,000. Current Gardens' facilities could be made to accommodate the Gardens proper and the addition of the annex.

Cost of such a building might run as high as \$500,000. But since the existing Gardens is valued at a grant of \$400,000 to the city, the project could be paid for by diverting those moneys and other anticipated revenues into the project.

The virtues of such an annex are obvious.

It is submitted here that two-and-a-half times—three games could be played every night of the week in the annex. That would be a great enough to take care of the organized hangers, midge and juvenile leagues in the city.

Budding performers would be able to play more games on a larger ice surface, thus furthering their hockey development. And, last, the annex would save the city the expense of erecting a new arena.

Ken Clapp and McKeloid counted for Ponoks in the second only to make it 4-2 for the victors.

At 9:18 B.J. Jones scored for the home team and team-mate Dave Shantz added another tally 95 seconds later to tie the game.

Jimmy Smith took Clapp's tally and the Red Deer led to count the winning goal. At the time Jarline of Gunners was sitting out a penalty.

Lenord 'Kills' Cal's Squad
Lenord's fourth goal gave the Red Deer's 10-0 shutout over Cal's last night in a Canadian Bantam Hockey league game at Diamond Park.

Other goal getters for Webb's were G. Fleming with two, Norm Queregaert, Bernie Pail, Pat Whitford and Danny Lenard. The home team's goal scorers were Whitford's total to four.

Maples Top Canucks 6-1
Maples overpowered Canadians 6-1 last night in a City Mid-Juniors hockey game at Ritchie rink.

Rod Lindbergh led the Maples with a brace of goals, while singletons were scored by Jerry Laury, G. Langlois, Dickie and Tom Dunlop. Dennis Locken netted Canadian's only marker.

South Siders Thump Canucks
Ed Sike and Ken Keffert scored four goals apiece last night to spark South Side to a 10-3 win over Canucks in a City Mid-Juniors hockey game at 119 street rink.

Neil Reinhardt netted South Siders' other two markers, while Canadian's tally was scored by Kuff, Kinneer and McKay.

SACRAMENTO, Calif.—(AP)—Cauler Bruce Edwards has turned unassigned the contract offered him by Brooklyn Dodgers.

Edwards, who wasn't satisfied with his last year's salary, said the Dodgers' whisked 25 per cent, legal limit, off his contract.

RANGER DEFENCE ACE BACK IN TWO WEEKS

NEW YORK, Feb. 8.—(AP)—Wally Stanowski, star defenceman for New York Rangers of the National Hockey league, may return to action within two weeks, manager Frank Boucher said yesterday.

The return of Stanowski, who has been out of action since a floating cartilage in his left knee. No operation has been performed but the swelling has gone down and Stanowski says he feels "great."

The return of Stanowski is eagerly awaited by Rangers, who have won only one game in their last 13 starts in slipping from second to a fourth-place tie with Boston.

Marotti On Prowl For Nolan's Scalp

Al Marotti is after the scalp of Jimmy Nolan, reigning king of the waterweights in western Canada.

And yesterday young Albert figured he'd be in the same ring with Nolan sometime in March. Ernie Farr, vice admiral in charge of Nolan's affairs and promoter of professional in Calgary, has recently assured Marotti a return fight with Irish Jim.

In their first tussle last year the decision ended in a draw. But Marotti insists that he should have been awarded the win.

Marotti scored both goals to give the visitors a 2-0 first period lead. The Warriors took the lead twice before Nolan sank his big counter early in the second stanza.

Collette scored both goals to give the visitors a 2-0 first period lead. The Warriors took the lead twice before Nolan sank his big counter early in the second stanza.

Ukrainians Seen Victims Of Stalinism

WINNIPEG, Feb. 5.—(CP)—Dr. Watson Kirkconnell, president of Acadia University, Wolfville, N.S., said here that more Ukrainians than any other group have been murdered or enslaved in the Soviet Union.

He said the Ukrainians have been the "supreme victims" of Stalin's mass murders. "As a murderer, Hitler was a small-time operator compared with Stalin, but for long years it was only for Hitler's victims that our North American press expressed any sympathy. Isaac-murder by Stalin was suggested over as 'social engineering' for a generation that has lost its sense of moral values."

The name Alaska is believed to have come from the Aleutian word "Atlayashka," meaning "The Great Land."

Catholics Urge Ban On Film

ROME, Feb. 5.—(UP)—Italian Catholic Film Committee urged Catholics in Italy today to boycott the new Anna Magnani film "Volcano," which has been touted as a competitor of the new Ingrid Bergman picture "Stormbol." "Volcano," which went before the cameras while Roberto Rossellini was directing Miss Bergman in "Stormbol," concerns a prostitute who returns to her volcanic island home in time to stop her innocent

alter from being led into a life of sin by a fishermen-preacher. Miss Magnani, one of Italy's top actresses, who the constant companion of Rossellini for years before he fell in love with and fathered Miss Bergman's son, Roberto Remar.

Fine Heritages Seen Challenged By Communism

WINNIPEG, Feb. 5.—(CP)—Professor G. Simpson of the University of Saskatchewan said here that "re-education of the cultural content in our own society" must be administered to meet successfully the challenge of Communist philosophy and Soviet intrigue.

He was addressing a gathering of delegates to the congress of Canadian Ukrainians. He said Canadians are fully aware "how seriously the balance of power has been upset and how menacing" to world security "is the present double threat of Communist philosophy harried to Russian aggression."

Chinese Famine Finally Strikes

HONG KONG, Feb. 5.—(AP)—The long-predicted food crisis in Communist China appears to have struck, Communist news agency yesterday in a dispatch from Shanghai said "in east China, north of the Yangtze alone, there are more than 15,000,000 famine victims." Of this number, 2,700,000 are said to have exhausted all food stocks and face starvation.

AT THE BAY! EXTRA SAVINGS IN THIS SALE OF

Luxurious Rugs From India

Only a limited number of these fine rugs at such great savings... we advise early shopping! They feature exceptionally heavy, deep all-wool pile, to give years of wear. Dairy Convention Delegates See Industry Still Out Front

J. R. NIXON, Edmonton, assistant dairy and poultry manager, Swift Canadian Company: Oil may be big but dairying will still continue to be one of the major agricultural activities in our Northern Alberta is concerned.

J. A. WOOD, Elmore, president, Central Alberta Dairy Pool at Red Deer: Milk is the staff of life. It makes the wheels turn. Increased oil production means increased population, giving greater sale of dairy products.

ARTHUR H. POTTER, Edmonton, supervisor Northern Alberta Dairy Pool: The oil comes out of the ground and so does milk—but it has to go through the cow first. We can eat or drink oil, so I think the dairy industry will hold its place.

LOYD COOK, Edmonton, NADP field man: Northern Alberta Dairy Pool must depend to a large extent on the life-sustaining nature of the dairy industry, and this will hold even though we do derive a considerable income from the oil industry.

E. LUCKS, Bruderheim, NADP cheesemaker and three times champion cow pinner for cheddar: Dairying gives a lot of people a good living. Only a few farmers are making money out of oil, and many farmers are losing through oil.

R. P. DIXON, Edmonton, supervisor dairy cattle improvement provincial government: It will be a big industry. Future of dairying in the north will depend on the dairy farmer's choice of the grey-woulded soils area. Soil conservation is one of the biggest factors in the welfare of the province.

DR. E. E. BALLANTYNE, Edmonton, provincial director of veterinary services: I don't think the oil boom will adversely affect the dairy industry. Products of dairying are consumed by humans being white products of the petroleum industry are used largely in machinery.

A. F. DENNETT, Edmonton, chief clerk provincial dairy branch: Fertility of the soil to provide forage crops is essential to successful dairying in order to provide a really cheap source of products. Oil production by companies does not benefit the farmer individually.

Page 13

SUN is stirring the grey clouds of winter. There is feeling in the air of more pleasant days to come. It's brighter earlier in the morning and shadows are longer

In the afternoon. Photographer Eric Bland caught the mood in this shot of a farm home in clearing on way to Seba Beach.

Province Is Gem Of Geography

Unlimited opportunities for the development of Alberta not only from an agricultural point of view but in many other industries and enterprises make this province one of the greatest geographic gems in North America, said Hon. David A. Ure, minister of agriculture, here last night.

Mr. Ure, in one of the first addresses since his prolonged illness, spoke to more than 400 persons at the annual "stag" banquet of Alberta Dairymen's Association convention.

He said that the province is a gem in the crown of Canada, not only for its natural resources but for its people and its industry.

Market Outlets Tie Up Dairies

IN COURT Mixed Stock Costs Driver 15% Penalty

"Wanted 11 treatment of ten head and one burned cow," cattle dealer, S. H. Hildrow, 415 and 1/2, said in Magistrate J. W. McCulloch's court yesterday when he pleaded guilty to charge of trespassing the animals with no division partition in his truck.

Hildrow told the magistrate that he started out with a partition made of "five twenty-fours," but that it broke on the way to town and was thrown into a ditch.

Evidence against Hildrow was presented by livestock inspector J. A. Jones.

Also on the docket was a poultry and graded bird license for overparking.

"I was out of a job," Lawrence told the court by way of excuse.

"Out of work and driving a car all the time," said the magistrate.

"I said it," said the defendant.

"Well, who didn't say you were a good driver?" the magistrate asked.

Third charged traffic law violator said he "wasn't supposed to be guilty" of driving his car on public thoroughfare.

"I use the car every day," Jack Groulx, the accused, told Magistrate McCulloch. "I just park it overnight."

"If you didn't leave it over 24 hours you're not guilty," said the magistrate. "Did you ever do that?"

"If I ever saw the time I had to leave, Groulx asked.

"I'm afraid there's no provision for it in the law," declared his worship. "Three dollars, and cost."

Campaign To Boost Use Of Products Is Urged

By Vic O'Neill
Bulletin Staff Writer

Continued instability of the Canadian dairy industry can be expected until stability is reestablished in the marketing outlets, Percy E. Reed yesterday told about 400 delegates to the Alberta Dairymen's convention.

Mr. Reed, from Regina, at advertising in newspapers. The American dairy industry in 1941 spent \$21,000,000 on advertising in 1941 in Canada, he said.

"That looks like a lot of money," said Mr. Reed, "but here in Canada the results are in proportion."

He said the marketing outlets had spent in a short period \$400,000 in lobbying alone.

When their lobbying resulted in success they spent about \$2,000,000 in publicity, with some \$750,000 spent in Canada during the campaign for the establishment of a dairy board.

"The industry is aroused, and needs to be aroused by the situation," declared Mr. Reed. "The domestic market is the only one we have left," he concluded.

ADVERTISING CAMPAIGN
He stressed the necessity for a campaign to promote the use of dairy products in Canada.

"It is not our purpose," he said, "to go to the United States, but rather to go to the heart of the matter and to the heart of the industry."

"To this end the Dairy Association of Canada is now planning following the highly successful plan of the American Dairy Association in providing funds for a giant educational and publicity campaign in Canada," he said.

LEVY IS SUGGESTED
In the plan he asked for much more money to be spent on advertising and other dairy producing industries.

The plan, which was established, would make one cent for every pound of butter produced, during the year.

At first this might seem to be a tremendous sum, but, Reed said, it would be a small sum when compared to the cost of the campaign in the United States.

Perjury Charge Is Withdrawn

Charge of perjury was withdrawn by the Crown in the case of Mr. J. A. C. McLean, a former member of the Alberta Dairymen's Association.

Mr. McLean, who was charged with perjury in connection with the case of the Alberta Dairymen's Association, was found not guilty.

The case was heard in court yesterday, and the judge found that the evidence against Mr. McLean was not sufficient to sustain the charge.

Mr. McLean was released on bail, and the case was adjourned for a later date.

Agriculture Is Still Province's Best Suit

Agriculture remains the mainstay industry and basic source of wealth for Edmonton despite welcome discoveries of oil and minerals, Chamber of Commerce President Oliver McIntyre told members of the Y Men's Club Tuesday.

Speaking at the weekly speaker meeting of the club, Mr. McIntyre explained the work of the large group of functioning committees in the Edmonton Chamber of Commerce.

Dairymen Honored
Three prominent members of the dairy industry last night were made life members of the Alberta Dairymen's Association.

Ernest H. James, who has shipped to Edmonton for 41 years, received his award from W. P. Grier, association president.

W. J. Beckett, chief of federal produce dairy graders in Edmonton, received his award from W. P. Grier, association president.

Mr. McIntyre also touched on accomplishments of other chambers of commerce such as aviation, that are now and develop, committee he added.

Mr. McIntyre pointed out that Edmonton, which has produced a record of growth.

Mr. McIntyre, Walter Smith was chairman.

A constant and steady committee has been developed to protect scientists from radioactive dust of time.

Mr. McIntyre, Walter Smith was chairman.

Prizes Given To Dairymen

Clanking a pair of competitive champions, first award winners in various competitions related to the dairy industry received trophies and prizes last night at the annual "stag" banquet of Alberta Dairymen's Association.

Awards were presented by Hon. David A. Ure, provincial minister of agriculture, assisted by Dairy Commissioner J. H. McCulloch.

GRADING SCORE
Highest aggregate score in grading dairy products went to David Rice of Woodland Dairy, Edmonton, who was presented with a silver trophy donated by the Plant section of the association.

In the greater average butterfat competition, A. Millington and Chas. D. H. Hildrow of Hildrow's Dairy and Farm Supply, Edmonton, also won the trophy.

Mr. McIntyre also touched on accomplishments of other chambers of commerce such as aviation, that are now and develop, committee he added.

ARTIFICIAL BREEDING

This year about 15 per cent of Washington's dairy cows would be bred artificially, Dr. A. O. Shaw, head of dairy husbandry department Washington State College, told the Alberta Dairymen's Association convention yesterday.

Dr. Shaw, who was in the past, James E. Ekel, Edmonton, plant superintendent for Northern Alberta Dairy Pool, was chairman.

SHOPPING GUIDE

Half-Baked Buns
Packaged for Sale

By Ben Thrifty

Now I've heard everything! You can't tell me kitchen queens aren't crafty! Proud little housewife who presents husband with an array of fresh-from-the-oven rolls may have a few tricks up the sleeve of her Mother Hubbard.

This special trick is buying rolls partially baked and finishing the job at home. Enterprising bakery dreamt up this idea to plague everyone. Frankly, I'd just as soon admit my bread-baking isn't much to be proud of...and depend entirely on the experienced shops.

But then...sometimes I'm a bit dull about these things. Another quickie-trick is buying uniced cake from your favorite baker and add your specialty-topper to it...presenting the result as a home-product.

Isn't we women deceitful though?

Bright star on the horizon of business is the ever-decreasing price of pork products. Ham, versatile table-staple that is now sold at a smaller price than a beef roast...or veal...or lamb...or almost anything else. When you buy a beautifully marbled piece of excellent ham, weighing close to five pounds, just \$2.50...you've got something m'ear.

So to put with the pot roast for the once.

Homemakers' haven for kitchen aids has jaded yet another.

This time the guys with the zillion dollar budgets have taken up with an arrangement that serves the wash-washers laundry. Plastic hangers with clips attached for two or three pieces of laundry are selling in bright-colored variety, or plain white and there are forward-looking...they sell at half-price for the once.

More gals about this "Sew and Save" business...and you needn't kick gals know that one sewing center offers help every Wednesday morning.

Homemakers with sewing problems are welcomed to the shop and experts do their experienced best to answer their questions.

So if you've had trouble fitting a sleeve, or figuring out a pattern, or just a little help, just drop in to this shop any Wednesday morning...and the advice is absolutely nothing to do with the money.

Youth Aliyah Campaign Stated For February 19

Annual Youth Aliyah Campaign of the Jewish Community of Canada is being held in the month of February. The campaign is being held in the month of February. The campaign is being held in the month of February.

Since the beginning of the year, the Jewish Community of Canada has been holding a campaign to raise money for the Youth Aliyah movement. The campaign is being held in the month of February.

The "best man" method of raising money for the Youth Aliyah movement is being held in the month of February. The campaign is being held in the month of February.

KEET ROUGE UNDER CONTROL—By putting cream rouge in the palm of one hand, using it as a palette, and applying it with a finger of the other hand, the application is more controlled.

WHY GROW OLD

Application of Rouge
Important to Beauty

By Josephine Lowman

This week I am passing on some ideas about make-up.

UP. I got these from Ned Barron, one of New York's experts. Many of the ideas were new to me and I am sure will be helpful to you. I do not like to generalize because makeup is such an individual matter; however, there are general rules that I can give you. I feel that it is helpful for a woman to use one hand as a palette, paint with the other hand and apply it. In this way the application is more controlled.

Following are a few suggestions below. Mr. Barron gave. Put one dot of rouge under the center of the eye and one dot on the corner. Blend rouge somewhat in a triangle, around the eye. If you are really quite hollow checked and wish to minimize it, you should blend rouge around the eye.

If you would like to have your make-up last longer, use a "fixing" powder. "On" send a stamped, addressed envelope with your request for it to Josephine Lowman, c/o the nose and no higher than in care of this newspaper.

DOROTHY DIX SAYS

Loyalty Questioned;
Men Against Women

DEAR MISS DIX: We have been discussing two questions in which we are greatly interested. One is: Which is the more loyal, men or women?

ANSWER: I think that women are more loyal than men, and that men are more loyal than women. I think that women are more loyal than men, and that men are more loyal than women.

There are many men who are loyal and many women who are not. I think that women are more loyal than men, and that men are more loyal than women.

There are many men who are loyal and many women who are not. I think that women are more loyal than men, and that men are more loyal than women.

YOUR BABY AND MINE

Eating and Sleeping
Habits Easily Changed

By Myrtle Meyer Eldred

Children get into the habit of sleeping in some preferential position, just as they develop preferences for one or another of the solid foods.

Even the small baby lies persistently on his back, or with his head turned always to one side even though his mother is at some pains to turn him every hour or so, so that he may not flatten his head.

The baby may be changed from side to side until about the fourth month, at which time it is usually safe to put the baby on his stomach. This will result in a decided preference for stomach sleeping. Accustom the baby to changing sides of face, by turning his head yourself if he sleeps too long in one position.

Unlike adults a baby does not eat because he knows the foods are good for him. He eats because he likes the taste of them. Even the taste may not influence him to eat a food whose texture displeases his mouth. He will eat like a slipper or grainy foods for some time. One good reason for serving a baby's food is to make it more to his liking as well as suitable to his digestive capacity.

The small baby cannot be aroused with him when he spits out a food, so the foods given him should be those he can spit out. If he wants peace and won't have beans, let it be peas. If he likes carrots and spurs spurs, then carrots will be the vegetable he gets daily. Use no force to get him to eat any food toward which he shows distaste. If he will not eat it, the more unpleasant and, even if he swallows it, he will not like it. He will spit it up again.

When the child is older it will be explained to him that we do not eat what he likes to eat. The way to do this is to try a spoonful or so, to save the taste of our tongue and wait for the liking to grow.

It may also be stressed that the child to eat all kinds of foods makes his digestion better and increases his enjoyment of the three-meals-a-day "ceremony" of eating.

Our leaflet No. 35 "Feeding Babies," may be had by sending a self-addressed, stamped envelope with your request to Myrtle Meyer Eldred in care of this newspaper.

BRIDGE

NT Hands Can
Mean Queer Plays

By William E. McKenney

Every bridge player, at some time or other, sets a good example in connection with some hand. I saw Eugene Bauer of New York City the other night and he said, "Bill, I'll bet you never saw a person play a hand at three in trump in which, with a singleton club in dummy and two little clubs in his own hand, he had to lead clubs in order to make his contract."

It did sound unbelievable. The clubs could be divided five-fours, and why wouldn't the opponents

Opening—♣ 5
cash their clubs and set the contract? Bauer said, "But it is true and it happened in the Metropolitan Tournament." To prove his point, he gave me Bauer's hand.

Bauer said to tell my readers that he did not justify the bidding, but a true story is better than fiction and three in trump was the final contract.

Send twenty-five cents in coins for this pattern (stamps cannot be accepted) to Edmonton Bulletin, Household Arts Dept., 60 Front Street, W., Toronto 1, Ontario. Please allow a week or ten days for delivery.

Just off the press—our new Alice Brooks Needlework catalog. Send twenty-five cents in coins for your copy. Illustrations of designs for crocheting, knitting, embroidery, toys, quilts, children's clothes. Free needlework pattern is printed in book.

five of hearts with the ace and returned the nine of hearts. Bauer, sitting South, won this trick with the queen in dummy. He saw he had two heart tricks, which was only seven.

Maybe he could score the opponents away from leading clubs. He led the king of clubs. West won the trick with the ace.

West can tell you he is confined with a heart, but he did. South won the trick with the queen. Even now he has only eight tricks.

At this point he cashed his five diamond tricks and the king of hearts. This left him with two little spades and the eight of clubs. Dummy had the king jack and ten of spades. East, unfortunately, kept the queen of clubs and the ace-queen of spades.

Now Bauer said, "Believe it or not, I led the eight of clubs. East had to win the trick with the queen and there was nothing he could do but cash the ace of spades and give me my ninth trick with the king of spades."

Now Bauer said, "Believe it or not, I led the eight of clubs. East had to win the trick with the queen and there was nothing he could do but cash the ace of spades and give me my ninth trick with the king of spades."

SPOTLIGHT SALE**Wash Frocks****Cotton Trio by 3 Well-Known Makers**

Write "Wash Frocks at EATON'S" on your Thursday shopping list; you'll save money! Pretty styled by three well-known manufacturers from bright, colourful cottons that are easy to launder... easy to wear... and designed to flatter you! Misses' and women's sizes in the group.

EATON'S Spotlight Sale,

Thursday, EACH

\$2.99

A—"EVER-FRESH": Coat frock in a small novelty pattern on grey background, with touches of frosty white on collar, sleeves and pockets. Choose yours with 2 extra buttons in blue or pink. Sizes 38 to 52.

B—"DUCHESS": White coin dots sprinkled at random on a trim little frock with 18" front pleat-lap collar. Wide rever collar, long cap sleeves and large side entrance pockets are eyelet trimmed. Navy, rose, cream and turquoise in sizes 14 to 44.

C—"MARLITA": Batiste dress in daily striped cotton. Dress is daintily styled with "Jewel" necklines and cap sleeves — buttons down the back to the hemline, and set in waistband, with a full gathered skirt. Two extra buttons. Mauve, red, green, blue or grey in sizes 12 to 20.

On Sale for Two Days or as long as quantities last.
